

Safety & Security Statement

Our Safety and Security Ministry helps ensure the safety of our physical facility and the people who worship and work here.

Law enforcement, both current and retired, along with other security professionals, make up the core of the team. We augment the team with staff personnel, elders, deacons, and ushers who receive additional, ongoing training. This team has helped implement important upgrades to fire safety and other security systems.

You can be part of this team too. As the saying goes, it takes a village...which we will interpret as wanting every NPC member to be a part of the team by doing the following things:

- Report any suspicious activity or behavior to a member of the Safety and Security Team.
- Contact a Safety and Security Team member to report any domestic situations that could endanger you or other NPC members. All information provided will be kept confidential.
- Report any hazards that you observe, both inside and outside the NPC building, to a Safety and Security Team member.

Our Safety and Security Team is working together to keep everyone at NPC safe and our property secure so that we all may enjoy the opportunity to worship God without concern for our safety. Won't you help us?

To report any safety or security concerns, please contact any Safety and Security Team member or *Coordinator Harry Trombitas at 614-563-1819.*
